

Create the event

Do this on a computer. Put names in the title. Put the room in the Description — that is how we usually allocate rooms. Achievers 10/F and 13/F calendars are linked, including Helios lessons.

1**Open Google Calendar**

Go to calendar.google.com and sign in.

2**Pick the right calendar**

Use the Achievers 10/F or 13/F calendar. Helios lessons go on these same calendars.

3**Click the lesson time**

Click the empty slot, or click Create. Check the correct calendar is selected.

4**Write the title**

Student name, then the event (Personal Statement, Portfolio, IBDP, ESAT, IGCSE...), then x, then the tutor.

5**Set the time**

Use the real start and end time in Hong Kong time.

6**Put the room in Description**

This is the usual way. See the box below. Location also works if you prefer.

7**Save**

Click Save. If the room changes, edit the Description on the same event.

Description — this is where the room goes

COPY THIS INTO DESCRIPTION

Room: 1309A

Also fine: Room: B

Student: Peter Chan

Also fine: 1309A

Tutor: Kelvin Chan

Also fine: CEO Room

How to write the title

The website splits the title at x . Left = student. Right = tutor. After the student, add the event or subject — including Helios classes.

STUDENT

Peter Chan

EVENT / SUBJECT

Personal Statement

X

X

TUTOR

Kelvin Chan

These events all work the same way

Put the event name after the student. The website ignores these words when matching a name, so Peter is still found as Peter.

EVENT TYPE	TITLE EXAMPLE
Personal Statement	Peter Chan Personal Statement x Kelvin
Portfolio / Portfolio class	Amy Wong Portfolio class x Kelvin
IBDP	Jayden Chan IBDP x Traf
ESAT (or TMAT, PAT, UCAT...)	Peter Chan ESAT x Kelvin
IGCSE / A-Level + subject	Peter Chan IGCSE Physics x Kelvin
Any other class name	Peter Chan Summer Workshop x Kelvin
(Online) Peter Chan Personal Statement x Kelvin	Online lesson — write Online
(Cancelled) Peter Chan IBDP x Kelvin	Cancelled — hides it from search
Peter Chan x Kelvin Chan	Fine if there is no event name

How to write the room in Description

Put one of these in the Description. The website reads Description first, then Location, then the title.

Room: 1309A	Best — clear and easy to scan
Room: 1309B or Room: B	B means 1309B
Room: CEO or CEO Room	CEO Room on 13/F
Room: 1012B	Achievers 10/F
Room: 804D or Room: 804F	Achievers 8/F
1309A	Fine if you only type the code

- Use a space, the letter x, and a space. Example: Peter x Kelvin — not Peter/Kelvin.
- If several students share a first name, use the full name in the title or in Description.

Do not write Meeting or Consultation on a real lesson

Those words hide the event from student and tutor search. The room stays booked. Do not put the tutor name on the left of x.

Open the correct link

Works on phone and computer. Share only the student link with students. Do not send the tutor or staff link to students.

Students

Search a student name. Chinese / English button.

<https://rooms.achievershk.net/>

Tutors

Search your own tutor name, not the student.

<https://rooms.achievershk.net/?tutor=achievers-tutor>

Staff

Search, floor board, and room availability.

<https://rooms.achievershk.net/?staff=achievers-wc-staff-2026>

Find a room

1

Type the name

Students type the student. Tutors type the tutor. Use at least 3 letters.

2

Tap Search

If a few people match, tap the correct name.

3

Read the card

You will see the time, Wan Chai or Prince Edward, and the room.

4

Check again later

Rooms can change. Check once more just before class.

Rooms change sometimes

Only check the room within 5 hours of the lesson. If you checked in the morning for an evening class, check again before you go in.

Offices and who to call

Wan Chai

Room 1012, 10/F, Tai Yau Building
181 Johnston Road
Room 1309, 13/F, same building

Prince Edward

Room 309, Summit Insurance Building
789 Nathan Road
