

Create the event

Do this on a computer. Put names in the title. Put the room in the Description — that is how we usually allocate rooms.

1**Open Google Calendar**

Go to calendar.google.com and sign in.

2**Pick the right calendar**

Helios calendar for Helios lessons. Achievers Wan Chai or Prince Edward for Achievers lessons.

3**Click the lesson time**

Click the empty slot, or click Create. Check the correct calendar is selected.

4**Write the title**

Student name, then the subject or event, then x, then the tutor. Example: Peter IGCSE Physics x Kelvin

5**Set the time**

Use the real start and end time in Hong Kong time.

6**Put the room in Description**

This is the usual way. See the box below. Location also works if you prefer.

7**Save**

Click Save. If the room changes, edit the Description on the same event.

Description — this is where the room goes

COPY THIS INTO DESCRIPTION

Room: 1309A

Student: Peter Chan

Tutor: Kelvin Chan

Also fine: Room: B

Also fine: 1309A

Also fine: CEO Room

How to write the title

The website splits the title at x . Left = student. Right = tutor. You can add the subject or event after the student. You do not need the room in the title.

STUDENT	EVENT / SUBJECT	X	TUTOR
Peter Chan	IGCSE Physics	X	Kelvin Chan

Title examples

TITLE	WHEN TO USE
Peter Chan IGCSE Physics x Kelvin Chan	Best — full names plus the event
Peter IGCSE Physics x Kelvin	Fine — first names plus the subject
Peter Chan x Kelvin Chan	Fine — names only
(Online) Peter IGCSE Physics x Kelvin	Online lesson — write Online
(Cancelled) Peter Chan x Kelvin Chan	Cancelled — hides it from search

How to write the room in Description

Put one of these in the Description. The website reads Description first, then Location, then the title.

Room: 1309A	Best — clear and easy to scan
Room: 1309B or Room: B	B means 1309B
Room: CEO or CEO Room	CEO Room on 13/F
Room: 1012B	Achievers 10/F
Room: 804D or Room: 804F	Achievers 8/F
1309A	Fine if you only type the code

- Use a space, the letter x, and a space in the title. Example: Peter x Kelvin — not Peter/Kelvin.
- Words like IGCSE, Physics, Maths, English, Biology are ignored in the name, so Peter IGCSE Physics is still found as Peter.
- If several students share a first name, use the full name in the title or in Description.

Do not write Meeting or Consultation on a real lesson

Those words hide the event from student and tutor search. The room stays booked. Do not put the tutor name on the left of x.

Open the correct link

Works on phone and computer. Share only the student link with students. Do not send the tutor or staff link to students.

Students

Search a student name. Chinese / English button.

<https://rooms.achievershk.net/>

Tutors

Search your own tutor name, not the student.

<https://rooms.achievershk.net/?tutor=achievers-tutor>

Staff

Search, floor board, and room availability.

<https://rooms.achievershk.net/?staff=achievers-wc-staff-2026>

Find a room

1

Type the name

Students type the student. Tutors type the tutor. Use at least 3 letters.

2

Tap Search

If a few people match, tap the correct name.

3

Read the card

You will see the time, Wan Chai or Prince Edward, and the room.

4

Check again later

Rooms can change. Check once more just before class.

Rooms change sometimes

Only check the room within 5 hours of the lesson. If you checked in the morning for an evening class, check again before you go in.

Offices and who to call

Wan Chai

Room 1012, 10/F, Tai Yau Building
181 Johnston Road
Room 1309, 13/F, same building

Prince Edward
